when many people hear the words united kingdom they instantly think of england this region part of the european island of great britain is indeed a large part of the

greater entity known as the united kingdom but many people do not realize that the uk also includes northern ireland scotland and wales today the united kingdom is a constitutional monarchy many years ago however the area now known as the united kingdom was made up of many smaller kingdoms through the centuries the leaders of those kingdoms fought for the right to rule the larger region a long line of kings and queens played parts in those battles eventually a government made up of the people emerged an ever evolving government that exists to this day

the last decade has seen an increase in political and ideological conflict in local government this book analyzes this context and examines both the operation of elected local authorities and the rise of a non directly elected local government

this book aims to seek for the truth which connects public value and social development as basis to build a harmony community for individuals as well as society the book tries to bridge science technology economics politics history ethics and environment under the concept of public values and reveals the essentials of public policy for individual and social development the potential audience of the book are officials and policy makers in the public sectors as well as managers in the private sectors

baez examines governmental technologies like information statistics databases economy and accountability arguing they shape contemporary politics and education he concludes these technologies are coopted by neoliberal rationalities managing risk and governance through economic models and oversight mechanisms

the giant city of today is a unique phenomenon never before have such acute problems of government the provision of essential services planning social life and civilized living arisen from uncontrolled urbanization in the west and in the east in the more developed and in the less developed countries in capitalist and communist states the great metropolis represents a problem of the first importance which challenges the statesman the official the town planner the political scientist the sociologist and above all the intelligent citizen the editor has here assembled an authoritative series of studies describing the growth significance government politics and planning of twenty four great cities of the world they show how these widely scattered cities faced essentially similar problems each study deals with the actual working of one city in the 1950s how its elective and executive bodies are organized the kind of political forces which motivate their activities the scope and character of the municipal services how they are financed the cities dealt with include bombay amsterdam moscow montreal stockholm rome new york london sydney and tokyo
